Hay Analysis

We recognize the importance of providing the highest quality hay for our horses. To ensure this, we have our hay tested through detailed analysis that examines its nutritional content, including fiber, protein, moisture, and mineral levels. This information helps you make the necessary adjustments to your horse's diet to promote their health and well-being.

For those boarders with horses facing health challenges who need guidance on selecting the appropriate

hay. If you'd like to receive the hay analysis, please let us know so we can add you to our e-mailing list for the hay results.

SCR Vaccination Requirement

- Influenza (Within 6 months)
- Rhinopneumonitis (Within 6 months)
- Worming (Within 6 months)
- Tetanus (Within 1 year)
- West Nile Virus (Within 1 Year)
- Encephalitis—Eastern & Western (Within 1 year)

All boarded horse shall remain current on these vaccinations and procedures for the entire time the horse is at the Stables. Therefore it is the responsibility of the owner to keep up to date with the vaccines and send proof of vaccines the office.

Reminder!! Once your horse has been vaccinated please have your vet forward the vaccine records to the office.

For those boarders that vaccinate their own horses or do their own dewormer, please provide the office with receipt and date it was given to the horse. Thank you!

It's Been that Long!

On March 22th, 2019, Serrano Creek Ranch was served notice that Orange County Coastkeeper was suing it. This month represents six years since we have been in a litigation lobster trap. During that time, your dedicated SCR staff has toiled relentlessly to do everything to keep the stable open. Both permanent infrastructure improvements, extensive documentation and testing have become standard for future operations. Sometimes, a single statistic says it all. During that time, the outside staff had to hand-dug over a mile of trenching, which was just one of the many requirements of the settlement agreement for SCR to stay open. That being said, we are two months away from concluding our relationship with the good folks at Coastkeeper, as we have fulfilled all the conditions of the settlement agreement.

During these six long years, daily operations were often overshadowed by the legal issues that were always on the front burner. With the going-away party for Coastkeeper nearing, we can begin to turn our attention back to the deferred maintenance that was postponed since 2019. In January, we began removing the last of the ancient eucalyptus trees that were well beyond their life expectancy. Now, we are turning our attention to rehabbing the tack sheds- many of which are more than 30 years old! Looking forward, we will focus on the Bee arena in May by re-grading and adding new sand footing. Our gravel hauler claims that he has better sand for arenas, and we will try out his recommendation as a trial.

While we can't make up for six years of postponed work in just one year, we are dedicating as much energy as possible over the next few years to catch up. Here's to a great summer!

As we gallop into the new year, I want to take a moment to congratulate the following rider and their horse for an incredibly successful 2024 horse shows. I'd also like to give a huge shoutout to Trisha Tedrow for stepping in and offering her support to the riders whenever needed. Thank you, Trisha!
